

- 
- A world map with a dark blue background. The map shows the outlines of continents in a lighter blue. Overlaid on the map is a network of lines and dots representing AWS infrastructure. Solid blue dots are scattered across North America, Europe, Asia, and Australia. Dashed blue dots are also present in some regions. A dense network of thin, light blue lines connects many of these dots, particularly in North America, Europe, and Asia. The lines represent interconnectivity between regions. The dots represent specific availability zones or regions. The map is oriented with North at the top.
