

State-of-the-Art Network – Superior Bandwidth & Connectivity

Purpose-built network design provides for high efficiency and maximizes effectiveness – a unique competitive advantage

■ Dedicated internet access

- ▶ Maintains maximum flow and connectivity at all times

■ Fiber-optic to the premises

- ▶ Provides faster transmission and greater capacity to your hotel

■ Multiple Points of Presence (PoPs; also called Network Access Points)

- ▶ Greater efficiency (less long haul)
- ▶ Improve reliability
- ▶ Flexibility

■ Full Redundancy

- ▶ Reduces outages or other network issues

■ Wireless Links

- ▶ Connectivity to island locations (Isla and Cozumel)
